PROFESSIONAL SUMMARY:

Dynamic Full Stack Web Developer skilled in JavaScript and the MERN stack, with strong problem-solving abilities and keen attention to detail. Proficient in developing and deploying efficient server-side APIs while enhancing user experience with React.js. Adept at leveraging Generative AI and rapidly adapting to new technologies.

EDUCATION

Masai School	2024-07-01 - 2025-02-30
Full-Stack web Developer	
Gujranwala Guru Nanak Institute of Management and Technology	2021-04-01 - 2024-04-01
Degree in Bachelor of Commerce	

TECHNICAL SKILLS

Programming Languages :	JavaScript, HTML5, CSS3, Python
Libraries/Frameworks. :	React, Node.js, Express.js, RESTful APIs, Redux, Tailwind CSS, Chakra UI, Material UI, Context API
Tools / Platforms :	Vs Code, Postman, GitHub
Databases :	MongoDB, Firebase

SOFT SKILLS

Teamwork , Problem Solving , Adaptability , Time Management ,

PROJECTS / Open-Source

Health Buddy - Patient Support Website Link	JavaScript, React, Node.js, Express.js, MongoDB,
<ul style="list-style-type: none">Collaborated with designers and product managers to develop a patient support platform using React.js and Node.js.Designed and implemented RESTful APIs with Express.js for managing patient data and appointment scheduling.Integrated MongoDB to create and optimize database models for secure storage of patient health information. Developed patient account management features, enabling users to maintain personal health records and set medication alerts.	
Sweet Home Real Estate Link	JavaScript, React, HTML5, CSS3, Firebase
<ul style="list-style-type: none">Collaborated with designers to translate project requirements into scalable web applications using React.js.Developed and integrated API functionalities to support features like filtering and sorting.Designed and maintained form-friendly UI components ensuring a seamless user experience.Implemented real-time data synchronization with Firebase to keep the application data up-to-date. Applied best practices in frontend development, enhancing the application's performance and responsiveness.	
MIT Marketplace	JavaScript, Redux, Node.js, Express.js, MongoDB, CSS3, Tailwind
<ul style="list-style-type: none">Collaborated with a small team to develop an e-commerce platform using the MERN stack, facilitating a seamless shopping experience.Implemented server-side APIs with Node.js and Express.js to handle AI chatbot interactions and user authentication.Designed and developed frontend components with enhanced filtering features using React.js and Redux. Created efficient database models and queries in MongoDB to support product and user data handling.Conducted testing and debugging operations to ensure a stable and reliable application performance.
